

YOUR STERILE SINGLE-USE SOLUTION
WITHOUT COMPROMISE

INNOVATION • QUALITY • SERVICE

Matching reusable standards

Save Time - Reprocessing

- First time sharpness
- Instrument damage/blockage is limited

Suitable for high risk procedures

Save Lives - Contamination

- Cross-infection is eliminated
- Risk is avoided

Cost effective

Save Money – Increase Productivity

- Theatre and clinic time IS REDUCED
- Diminished re-processing, repairs and replacement

4mm (12fg)

FSH2012	Frazier Suction Handle 184 x 4mm OD (12fg), double packed	20 units
FSF2012	Frazier Suction Handle 184 x 4mm OD (12fg), fenestrated, 150° bend, double packed	20 units
FSF2412	Frazier Suction Handle 184 x 4mm OD (12fg), cross fenestrated, 150° bend, double packed	20 units
FSN24212	Frazier Suction Handle 184 x 4mm OD (12fg), 42° bend, without suction control, double packed	20 units

Suction Handles

EXTENDED RANGE

- Stainless steel tube with colour coded luer connector for micro suction use
- Also suitable for use with syringe as irrigation device
- Available in 86, 110 and 120mm lengths

MICRO SUCTION TUBES

MSD2001	Micro Suction Device 86 x 2mm OD (6fg), double packed	20 units
86mm		
MSV508113	Micro Suction (Verhoeven) Red 86 x 2.3mm OD (13g), double packed	50 units
MSV508113R	Micro Suction (Verhoeven) Red 86 x 2.3mm OD (13g) with Suction Regulator, double packed	50 units
MSV508114	Micro Suction (Verhoeven) Green 86 x 2.1mm OD (14g), double packed	50 units
MSV508114R	Micro Suction (Verhoeven) Green 86 x 2.1mm OD (14g) with Suction Regulator, double packed	50 units
MSV508116	Micro Suction (Verhoeven) Cream 86 x 1.65mm OD (16g), double packed	50 units

MSV50227	Micro Suction (Verhoeven) Clear 120 x 0.4mm OD (27g), double packed	50 units

UNIVERSAL ADAPTER

- House style regulator with control
- Luer connector suitable for Verhoeven and other micro suction tubes

SUCTION REGULATOR

DSRP5001	Suction Regulator Yellow, double packed	50 units
----------	---	----------

*Tubing and Verhoeven
not included*

Suction Handles

SPECIAL SIZES

- Stainless steel for balance and precision
- Supplied with detachable outer to spread suction
- Ideal when plastic handles are inappropriate
- Available in three lengths 190, 240, 330mm to suit patients from neonates to high BMI adults

POOLE SUCTION HANDLE

PSHN1001	Poole Suction Handle Neonatal, double packed	10 units
PSH1001	Poole Suction Handle, double packed	10 units
PSHL1001	Poole Suction Handle Long, double packed	10 units

CHOICE OF ROSES

- Ideal when plastic handles are inappropriate
- Detachable rose with three (YST1000) or six holed modified rose (YST1000R)
- Ideal for tonsillectomy

YANKAUER SUCTION HANDLE

YST1000	Yankauer Suction Handle 305mm with rose, double packed	10 units
YST1000R	Yankauer Suction Handle 305mm with modified rose, double packed	10 units

Tip Shields

- Supplied non-sterile
- Wide choice of colour, size, and shape
- Cost effective instrument protection
- Protects staff during reprocessing and sterilisation

TIP SHIELDS

SM5010	Flat 26mm width Black, single packed	100 units
SM5020	Flat 13mm width Brown, single packed	100 units

TIME

LIFE

COST

Vascular Booties

Protect Sutures

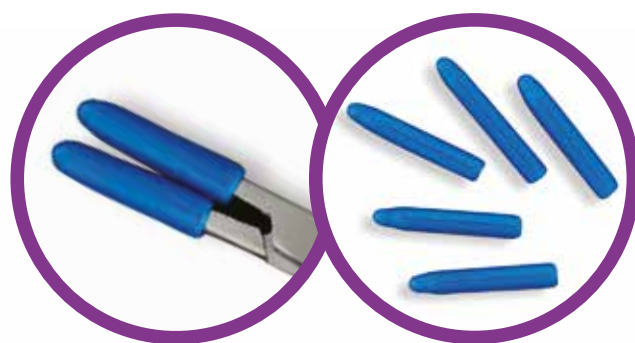

Savings benefits of single-use instruments

TIME = Comparable to alternatives

LIFE = Comparable to alternatives

COST = Savings of 33% per patient

Annual potential saving up to £1,000

Current Treatment

- In vascular and cardiovascular surgery "boots" or "shods" are used on mosquito forceps to protect the suture from kinking and breakage
- Vascular surgeons typically require three pairs of boots and cardiovascular need five pairs for a larger number of vessel connections
- Commonly, many units use sterile packs for each patient
- In some cases these are presented in a tray format supposedly to make it easier to place on the forceps. This costs about £1.00 per patient and generates additional waste material

DTR Medical's Saving Alternative

- DTR Medical's Vascular Booties are available in sterile pouches containing 6 or 10 booties for individual vascular or cardiovascular cases
- The peel pouch can quickly be opened onto the sterile field and the boots applied easily to the forceps
- There is no extra packaging
- Comparative costing can be confusing because of different case quantities (packs of 10 vs. 50) and for this reason it is recommended to look at the cost per patient in the first instance

Item	Suture boots	Vascular booties
Cost per patient for 6 boots	£3	£2.02
Saving per patient		£0.98
Estimated 20 patients per week		1000 patients per year
Annual Saving		£980.00

“Supporting visibility, quality and safety in your supply chain”**

Our instruments' packaging features the latest machine readable GS1-standard barcoded labels for product traceability.

The newly incorporated labelling technology is a timely development with an increasing number of health providers worldwide adopting an 'eProcurement' strategy and will provide machine readable product information on all labels to meet expected EU and other regulators demands.

Associated benefits include:

- Improve patient care and reduce costs
- Improve stock control
- One global language
- Accurately track equipment

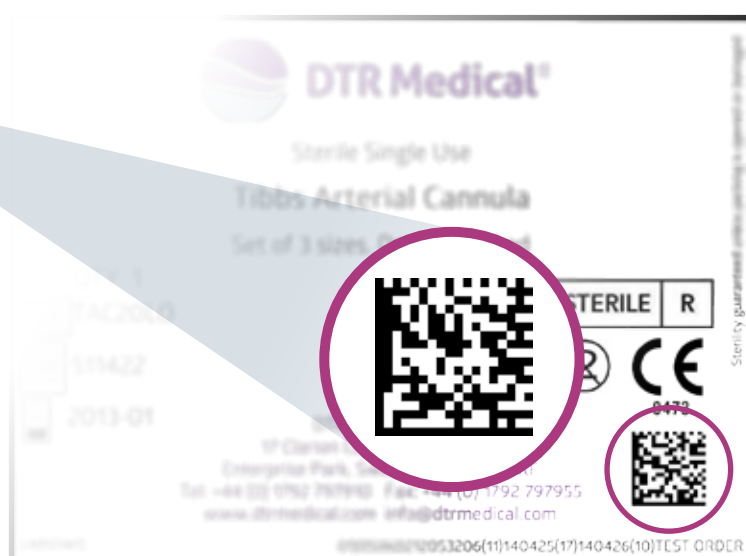

“Unique device identification (UDI) compliance represents a significant development for our customers. Automation of information flow will have influences across the whole purchasing and supply process, providing the benefits of superior instrument traceability and improved patient safety.”

“We are working closely with Kodit UDI software to provide our labelling solutions to meet the latest international regulations and we serve as a reference site for other manufacturers to learn from.”

Andrew Davidson
(Managing Director of DTR Medical)

For more information on our new product labelling, please contact Customer Services on +44 (0) 1792 797910 or info@dtrmedical.com
